Healing from Violence fills this void. Drawing on a research study of 150 Latino men who completed a year of court-ordered treatment in Southern California, and a four-year pilot study, the authors mix quantitative and qualitative methodology in order to provide counselors with an opportunity to hear first-hand how Latino partner abusive men think about manhood (machismo), interpersonal relationships, (respeto, personalismo, and simpat áa), and family life (familismo). The authors then ...
