Seeing is Understanding. The first VISUAL guide to marine diesel systems on recreational boats. Step-by-step instructions in clear, simple drawings explain how to maintain, winterize and recommission all parts of the system - fuel deck fill - engine - batteries - transmission - stern gland - propeller. Book one of a new series. Canadian author is a sailor and marine mechanic cruising aboard his 36-foot steel-hulled Chevrier sloop. Illustrations: 300+ drawings Pages: 222 pages Published: 2017 Format: softcover Category: Inboards, Gas & Diesel

Watching the kite ascend higher into the sky, ten-year-old Raghav felt butterflies run deep down his gut, inflating his desire to fly high in a supersonic jet. His kite, entangled with another, crashed onto the ground. The flight took off smoothly from the runway of her heart, only to be hit by turbulence and thunderstorms smashing the plane into an abandoned sea full of gloominess. There he saw a lighthouse, a ray of hope. She became his lifeguard and taught him to swim through the storm. Like a guiding angel, she enlightened him towards the path of self-discovery leading to his journey to the island called ' Bollywood. ' Raghav rode on a roller coaster encompassing love, passion, and conflicts. Hopping from one town to another in search of his purpose, he landed in the city of love and lights, Paris, where he saw the horizon, an illusion of his world merging with hers. But just like the two poles on Earth never meet, so was his destiny. On one side, he had Diya whom he could never get, and on the other side was Niharika whom he could never lose, and in the midst of all the chaos, he found his treasure. Come along with him to discover his hidden treasure. Who knows! You might find yours too.

Nigel Calder, a diesel mechanic for more than 25 years, is also a boatbuilder, cabinetmaker, and machinist. He and his wife built their own cruising sailboat, Nada, a project they completed in 1984. Calder is author of numerous articles for Yachting Monthly and many other magazines worldwide, as well as the bestselling Boatowner's Practical and Technical Cruising Manual and Boatowner's Mechanical and Electrical Manual, both published by Adlard Coles Nautical. Here, in this goldmine of a book, is everything the reader needs to keep their diesel engine running cleanly and efficiently. It explains how diesel engines work, defines new terms, and lifts the veil of mystery that surrounds such engines. Clear and logical, this extensively illustrated guide will enable the reader to be their own diesel mechanic. As Nigel Calder says: 'there is no reason for a boatowner not to have a troublefree relationship with a diesel engine. All one needs is to set the engine up correctly in the first place, to pay attention to routine maintenance, to have the knowledge to spot early warning signs of impending trouble, and to have the ability to correct small ones before they become large ones.'

On 3 September 1939, Amy Browning decided to start writing a diary. It was a momentous day for so many reasons: it was Amy's eighteenth birthday; her sister had just given birth to a baby boy; and on the radio it was announced that Great Britain was now at war with Germany. For a while, life didn't change very much for Amy. Living with her family in Opal Street, Liverpool, Amy and her friend both got jobs at a factory and spent their free time looking round the shops, or watching the ships being loaded at the docks. But as the months went by, things began to change. The bombing started, and Amy's fears grew for her brother, fighting in France, and her boyfriend Ian, in the RAF...

Assessment and Treatment of Non-Suicidal Self-Injury: A Clinical Perspective is the ideal primer for anyone who works with people who self-injure. Profiling who is affected as well as what their behaviour includes, the book explores the range of factors behind why people self-injure, from the influence of social media to the need for self-regulation, and offers recommendations for both assessment and outpatient treatment. Throughout, the book is permeated by profound respect for those who use self-injury in an attempt to live a good life, while conveying a deep understanding of the challenges that self-injury presents for family members and treatment professionals. It recognizes that the behaviour can spread in hospital wards or other institutional setting, introducing the concept of self-injury by proxy, and assesses the range of therapies available, including CBT, MBT, ERGT and family therapy. Each chapter is complemented by clinical vignettes. In an era when a great number of professionals will come into contact with someone who self-injures – including teachers, social workers and nurses as well as therapists – The Assessment and Treatment of Non-Suicidal Self-Injury is an invaluable resource that examines both the causes and the treatments available.

Head nurse Britannia finds herself strangely attracted to the stone-faced and stoic visiting professor Jake Luitingh van Thien. Getting a glimpse into his softer side, Britannia takes him up on his offer to visit his hometown in Holland to find love...
